

Curriculum Vitae

Personal Data

Title	Prof. Dr. med.
First name	Maike Julia
Name	Büttner-Herold
Current position	Deputy Head of the Department of Nephropathology, attending physician
Current institution(s)/site(s), country	University Hospital Erlangen Department of Nephropathology Institute of Pathology Krankenhausstr. 8-10 D-91054 Erlangen, Germany
Identifiers/ORCID	0000-0002-9974-6683

Qualifications and Career

Stages	Periods and Details
Jean-Paul Primary School, Schwarzenbach/Saale, Germany	1984-1986
German School of Brussels, Belgium	1986-1989
European School of Brussels II, Brussels, Belgium	1989-1996, European Baccalaureat
Graduate degree ('Staatsexamen')	Medicine, 1996-2003, Erlangen, Germany
Doctoral thesis (MD)	2003, Prof. Dr. Steffen Stenger, Department of Medical Microbiology, Immunology and Hygiene University Hospital Erlangen, FAU Erlangen, Germany Theme: Dendritic cells and macrophages as effector cells in tuberculosis
Resident physician and researcher	2003-2010; Prof. T. Kirchner, Prof. G. Niedobitek, Prof. T. Papadopoulos, Prof. A. Hartmann; Institute of Pathology, FAU Erlangen, Germany.
Board examination in Pathology	2010
Consultant, attending and researcher	Since 2010, Specialties: Nephropathology, Transplant Pathology, Hematopathology, Heart Pathology; Department of Nephropathology, Head: Prof. K. Amann, FAU Erlangen, Germany.
Venia legendi/Habilitation in Pathology	2011, Prof. A. Hartmann, Institute of Pathology, FAU Erlangen, Germany Theme: EBV-associated tumours in interaction with the immune system
außerplanmäßige Professorin	2018, Prof. K. Amann, Department of Nephropathology, FAU Erlangen, Germany

Activities in the Research System

Participation in:

- RPS/IKMG consensus on pathologic definitions and terminology of monoclonal gammopathy-associated kidney lesions working group
- EHA Working Group: Diagnosis and management of Myeloproliferative Neoplasms in patients age 25 years or less: A consensus statement from EHA
- Banff Working Groups: Pancreas Transplantation, Kidney Transplantation, Electron microscopy
- Pediatric MPN-registry Erlangen

Reviewer activities (e.g. Virchows Archiv, Transplantation, CJASN)

Lectures and courses for clinicians, researchers and pathologists

- DGfN: Microscopy course on Nephropathology and Nephro-Quiz
- Volhard-Fahr-Course, Mannheim: Lecture and Course on Nephropathology
- Summer-School BDP: Lecture on Nephropathology
- REN^{PRO} Advanced Nephrology Training Course: Lecture on Nephropathology
- Walter-Brendel-Kolleg: Lecture on Kidney and Pancreas Transplantation
- Review articles concerning topics in Nephropathology and Transplant pathology

Memberships:

- European Society of Pathology (ESP)
- Deutsche Gesellschaft für Pathologie (DGP)
- Deutsche Gesellschaft für Nephrologie (DGfN)
- International Academy of Pathology (IAP)

Research interests

- Nephropathology: Monoclonal gammopathy of renal significance, thrombotic microangiopathy, tubulointerstitial disease, nephropathy in bone marrow disease
- Transplant Pathology (Kidney and Pancreas)
- Graft versus Host Disease
- Immunology, tumour immunology
